**Quantitative Data Analysis using SPSS Software**

Department of Economics organised a webinar on the topic “**Quantitative data analysis using SPSS Software**” on 18th November 2019. The resource person is Dr. Resmi S Panikker, Assistant Professor, Department of Economics, University College, Thiruvananthapuram. As a part of the soft skill development programme among students, she introduced the SPSS software and provided hands-on training regarding the analysis of data, and how to solve problems like missing values and outliers. Though the session was in online mode, it was highly interactive. Students from nearby colleges like NSS College, Neeramankara and VTM NSS College, Dhanuvachapuram also participated in the webinar. After the session, the resource person shared study material for practice.

## Workshop on Word Processing

A Workshop on Word Processing was conducted by Dr.VaisakhanThampi D S, Asst. Prof., Dept. of Physics, Mahatma Gandhi College, Trivandrum on 10<sup>th</sup> February 2020, 9/3/2022 at MG College for the Post Graduation Students as well as Research Scholars. The Workshop was effective in giving valuable practical ideas on word processing and its usage. The primary purpose of this workshop was to share the importance of word processing which is useful for their project report as well as future necessities. The workshop began with introducing the basic features found in word processing software and its uses. The role of editing and enhancement features such as cut, copy, paste, borders, numbering, fonts etc was emphasised.

Formatting features such as alignment, line spacing, margins, page break, etc and the insert

features such as header and footer, page number, word art and so on were also discussed. Elaborating on these features, he also highlighted the common mistakes made while handling word processing. The students were asked to practice this and also to avail necessary clarifications. The programme enhanced the word processing skills of users and the ease of doing it was revealed. The session was interactive and also had a fruitful discussion and doubt clearances.

The workshop concluded by giving very important suggestions to the students in effective usage of word processing and the techniques to avoid the common mistakes. The students had a better experience in attending the programme and were worthy enough.

## 2022-23

### **ICT/computing skills**

#### **Program No.1- World Environment Day Celebrations 2022-“TIME FOR NATURE”, A Collection of Six Flash Presentations as a part of Environment Day Celebrations, 10<sup>th</sup> June 2022**

The world environment day is celebrated every year on 5<sup>th</sup> June to raise global awareness to take positive environmental action to protect nature and the planet Earth. It is a day that reminds everyone on the planet to get involved in environment friendly activities. People come together to pledge towards building a greener planet. Keeping this aim in view, postgraduate students of Department Of Chemistry, Mahatma Gandhi College, Thiruvananthapuram conducted the programme “Time for Nature”-A collection of six flash presentations as part of Environment Day celebrations on 10<sup>th</sup> June 2022 coordinated by MSc Chemistry students. “Only One Earth” was the campaign slogan, with the focus on “Living Sustainably in Harmony with Nature”.

The programme started with a fervent prayer. A heartwarming welcome remark was delivered by Medha Lal R, Postgraduate student. An opening speech giving an insight to the need to take immediate action to save the environment and mother Earth was given by Dr. Simi C K , Head of the Department in charge. A soulful rendition of the evergreen poem “Bhoomikkoru Charamageetham” by O.N.V. Kurup was recited by Vaishna Chandran P, postgraduate student. An introduction to the importance of the day was given by Ramjith R P, Postgraduate student. Devika JS , Postgraduate student presented on the topic ‘Air Pollution’, explaining about its causes, effects and control measures. A presentation on soil pollution and its effects were vividly explained by Aswani M S , Postgraduate student making the spectators aware of the immediate need for its conservation.

Devika Suresh, 1<sup>st</sup> year postgraduate student presented about the harmful effects of noise pollution and its control measures. In addition to it she explained about the adverse effects of electronic wastes often considered trivial by many due to lack of awareness. Consequences, after effects, precautions of major pollutants were explained in detail by Parvathy Chandran L, Postgraduate student. She further presented on various protocols regarding environment protection. Narration of major disasters enhanced the curiosity of the spectators

and was presented well. Mithun on behalf of the undergraduate students and Dr.Ratheesh Kumar V K on behalf of the faculty gave their feedback about the programme. The programme came to an end with the vote of thanks by Geethu G ,1<sup>st</sup> year postgraduate student.

## **ICT/computing skills**

### **Program No.2- FLASHES**

On 23rd of February 2023, the Postgraduate and Research Department of Chemistry of Mahatma Gandhi College, TVM in association with IQAC organized the extension program “**FLASHES**”. The program included flash presentations based on scientific concepts along with a Quiz competition for school students. 30 Students from class IX of St. Mary’s Higher Secondary School, Pattom were the participants. The inaugural session included words of wisdom from our respected Principal, Dr. Nanthiyath Gopalakrishnan. Dr. Sikha T S, Head of the Department of Chemistry, and Dr. V K Ratheesh Kumar, IQAC Coordinator addressed the gathering. Dr. Dhanya V S proposed the vote of thanks.

Science education allows students to gain a better knowledge of how and why things function. Science creates curiosity that helps students understand and formulate questions on the information they have accumulated. Undergraduate as well as Postgraduate students were in charge of the flash presentations. 5 different and interesting Chemistry topics were presented before the school students in the form of flash presentations. Priyadersini P S presented about Proteins, their classification, and structure. The students found it interesting to learn about the proteins they have heard of in a different light. Learning about the environment and ways to conserve is the need of the hour. The presentation on pollution, its cause and effect were conducted by Parvathy Nair A V. Through her presentation she was able to draw the attention of the students to this very alarming scenario and the discussion on the measures to control pollution with those young minds was a ray of hope. A basic introduction to Polymers was given by Lipson Raju. The presentation was interesting as the students got to know about a variety of polymers around them. Presentation on Colloids, their classification, and properties was done by Anupama A S. Students were able to understand the concept clearly as the idea was given through a lot of examples. Chemistry is not just about some equations or reactions. It plays a major role in our lives and touches almost every aspect of our existence in some way or the other. Anandhu A S presented the importance of chemistry in everyday life vividly to the students. They were fascinated to learn about the chemistry behind common things like soaps, detergents, drugs, preservatives, etc.

The quiz competition “**GeNiUS**” was organized by the final year postgraduate

students. A preliminary round was conducted to shortlist 10 students for the main quiz. A questionnaire of 20 questions was given to each one of them and the top 10 were selected. They were paired into 5 teams – Curium, Nihonium, Moscovium, Tennessine, and Oganesson. The main quiz had 4 rounds – Periodic Table Round, Who Am I Round, Buzzer Round, and Rapid Fire. Team Curium won the competition and the winners were awarded gifts. Honest feedbacks from the participants were the ending note of the program.

### **Report of study tour conducted for S6 BSc Chemistry students (2020 admission)**

A study tour for the final semester BSc degree students was conducted during 11/03/2023 to 16/03/2023. The tour was participated by forty two students accompanied by faculty members of the department. As part of the tour, students visited Karnataka Silk Industries Corporation Limited, Mysore where they got an opportunity to visit and learn about the various steps involved in the production of natural silk fibres from cocoon. They also visited the facilities used for the production of textile materials from the silk fibres isolated from silkworms. The visit enabled the students to understand the scientific principles behind various processes used in the factory including sericulture, thread extraction, different types of dyeing, spinning of fibres, weaving and final production of consumer goods. The students visited the Sandalwood Oil Factory, Mysore and familiarized with the steam distillation process used to extract oil from crushed sandalwood. This was followed by the visit to tea factory at Ooty. During the visit, the students were informed about the various steps involved in the production of different quality tea from tea leaves and the machines used for the production of tea powder. The students got an opportunity to interact with the technical personnel of the tea production centre to know more about the scientific procedures being used in the factory. They also visited the instruments and protocols used in the quality control facility of the factory to ensure the prescribed standards for the final products from the production centre.

An awareness program on **Digital Banking** organized by PG & Research Dept. of Commerce, Mahatma Gandhi College, Thiruvananthapuram in association with Federal Bank, Thiruvananthapuram.

**Venue: Seminar Hall**  
**Date: Aug 08, 2022**  
**Time: 1:30pm**

**Report on Awareness Programme on *Digital Accounting* organised by PG & Research  
Department of Commerce Mahatma Gandhi College in association with Federal  
Bank Trivandrum Region on 8<sup>th</sup> August 2022**

### **Introduction**

PG & Research Department of Commerce Mahatma Gandhi College in association with Federal Bank Trivandrum Region organized an awareness programme on Digital Banking on 8<sup>th</sup> August 2022 for PG and Second Year UG students. Seminar Hall was the venue for the programme. The programme began at 1.30 pm with a prayer and was followed by Acharayanusmaranam. Dr. Dileep. A.S, Senate Member, University of Kerala and Head of the Department of Commerce at Mahatma Gandhi College proposed welcome speech. The presidential address was given by Dr. V.M. Anandakumar, Principal, Mahatma Gandhi College. Dr. Pradeepkumar. N, Dr. Vinod A.S, Dr. Jayadev .S, Dr. Sumitha .R and Sri. Vishnu Gopan expressed felicitation to the programme and at 1.50 p.m. Sri. Rakesh S.(Programme Coordinator) gave a vote of appreciation to end the official inauguration. This was followed by the session on Digital Banking handled by Mr. Anoop Antony, Branch Head, Federal Bank Muttada Branch. The session ends at 3.30 pm.

### **Objective**

This programme primarily focused on introduction to digital banking and its various products, need of customer education and awareness for digital products, internet banking and mobile banking and an overview of global and domestic payment systems.

### **Methodology of the Programme**

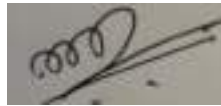

Mr. Anoop Antony, Branch Head, Federal Bank Muttada Branch led a 1.5 hour expert session through power point presentation and class participation and discussions, which was the backbone of the programme, to accomplish the aforementioned objective. He gave a clear picture on digital banking and demonstrate the method of opening an account and manner of carry out online banking. Altogether 49 students attend this programme, and they register using a Google Form that was made available to them.

## **Outcome of the Programme**

The programme was a grand success and gave students a better grasp of various digital banking products and bank payment systems as well as provided firsthand look at new technology that the bank had used to enhance the customer experience. This will undoubtedly be beneficial to the students for having the necessary information to get acquainted with the dramatic changes in the financial sector due to the digital revolution. Google Forms were also used to gather comments and suggestions on the course.

Feedback analysis on *Digital Banking*, an Awareness Program organised by PG & Research Dept. of Commerce, Mahatma Gandhi College in association with Federal Bank Thiruvananthapuram

Kindly mark your opinion on following factors

***From the analysis of the feedback we can conclude that:***

- Majority of the participants were satisfied with regards to the programme content.
- Most of the participants expressed great satisfaction on the topics covered during the session.
- The majority of the students expressed satisfaction with the expert's presentation and the individualised attention he provided during the session.
- The majority of students opined they were satisfied with the outcome since it was what they had anticipated.

[ Request for the approval of Add on course for the academic year 2022-23]

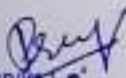

Sir/Ma'am,

The department is planning to offer an add on course during the academic year 2022-2023 under the title "EC 33 Applied Econometrics using GRETL". Smt Sruthi S, Assistant Professor, Department of Economics, Mahatma Gandhi college will be the course coordinator as well as the instructor. We have planned for a 30-hr course which is expected to commence by last week of August 2022 and is expected to conclude before February 2023. The targeted group is the Economics Graduate and Post-Graduate students. The details of the course are attached herewith.

Thanking You

Yours' sincerely

HoD

**EC 33: Applied Econometrics using GRETL**

Academic Year 2022-2023  
Mahatma Gandhi College  
Thiruvananthapuram

---

### Course Synopsis

This is a course designed for final year undergraduate B.A. Economics or any M.A. Economics student who has done a basic course in Econometrics in their undergraduate programme. The course is designed to extend students' knowledge of basic econometric concepts and techniques learnt in Econometrics. Students will learn multiple linear regression techniques with dummy variables, more functional forms, concepts of measurement errors, multicollinearity and heteroskedasticity. These skills can be utilized in analysing data across multiple disciplines such as economics, political science, finance, business etc.

GRET is a powerful free statistical software that allows us numerous ways to analyse, manipulate and present data. This course is designed to provide an introduction to this software, which can perform both basic as well as advanced statistical analyses. It is **not** intended to explain you the statistical and/or econometric methods. Students will be introduced to some basic features of Stata (e.g., learning how to do data analysis using econometric tools) leading to efficient data management skills. We will include several topics on statistical analyses, performing regression analyses, as well as delving into the territory of graphics.

### Prerequisites

- Basic Econometrics, Basic Mathematics, Simple understanding of Hypothesis testing and Distributions.
- Laptop or desktop is recommended. [Those who want to do the course but don't have laptop or desktop can contact the instructor and get lab assistance from the college.]

### Course Outcome

Participants who successfully complete the course are expected to understand:

1. How to estimate OLS (simple linear and multiple linear regressions)
2. CLRM assumptions and how violations of these assumptions can affect statistical inferences;
3. How to interpret OLS statistics in different functional forms
4. Multicollinearity and Heteroskedasticity (various test and remedies)
5. Instrumental variable approach to regression analysis;
6. Basics of the GRET or Microsoft Excel used by economists to analyse economic data.

### Class Timing

Morning Slot: 8:00 to 9:30

Evening Slot: 3:30 to 5:00

The class timings are fixed dates will be intimated later after the inaugural class.

### Instructors and Hours

Instructor : Sruthi S

Preferred Contact : [sruthi@mgcollegeetvm.org](mailto:sruthi@mgcollegeetvm.org)

**Readings**

- Required Textbook: Wooldridge, J. M. (2009). Introductory Econometrics: A modern approach, 6th edition, Cengage Learning, India. [JW]
- Stock, J. H. & Watson, M. W. (2019). Introduction to Econometrics, 4th edition, Pearson [SW]
- Damodar N Gujarati and Dawn C Porter (2009): Basic Econometrics, Fifth Edition, McGraw Hill International Edition [GJ]
- Damodar N Gujarati (2011): Econometrics by Example, First Edition, Palgrave, MacMillan [GJX]
- AH Studenmund: Using Econometrics: A Practical Guide, Fifth Edition, Pearson Education [SM]

**Assessment**

Evaluation will be 50% (internal lab exam in GRETL), 40% (Internal Written Exam: MCQ) and 10% for attendance and class participation.

**Assessments:**

You will have several assessments throughout the course. The classes will include lecture, lab sessions and the assessment will also be done continuously based on your performance in understanding the software and also your efficiency in understanding various econometric problems using GRETL.

**Exams:** There will be no assignment for the course. There will be a final exam (40% of your grade). The final exam will be held according to university schedule.

**Academic Integrity:** Academic Honesty, Cheating, and Plagiarism as per university policy.

**Attendance Policy:** As per University policy for any other regular course degree course.

**Course Contents****Syllabus**

30 Hrs

**Module I: Simple Linear & Multiple Regression Model**

10 Hrs

Introduction to Econometrics -The concept of PRF & SRF -Significance of stochastic error term- Method of ordinary least squares- Assumptions underlying the method of least squares- Properties of estimators- Gauss Markov Theorem-Coefficient of determination,  $r^2$  - Hypothesis testing- t and F tests-P value- Practical versus statistical significance-Prediction-

Multiple coefficients of determination  $R^2$  and adjusted  $R^2$ -Hypothesis testing-Testing the overall significance of the regression model-F test

**Module II. Econometric Problems and their testing**

10 Hrs

Multicollinearity- Nature, consequences, detection and remedial measures-Autocorrelation- Nature, consequences, detection, and remedial measures- Heteroskedasticity-Nature, consequences, detection and remedial measures.

**Module III. Dummy Variable Regression Model**

10 Hrs

Dummy variable-ANOVA models-ANCOVA models-Dummy variable trap-Dummy variables and seasonal analysis-Structural analysis-Piecewise linear regression.

**Important:** This syllabus is intended to give the student guidance in what may be covered during the semester and will be followed as closely as possible. However, the instructor reserves the right to modify, supplement and make changes as the course needs arise.

- Multiple Regression Analysis: Further Issues  
JW: Chapter 6
- Multiple Regression Analysis with Qualitative Information  
JW: Chapter 7 and SW: Chapter 11
- Heteroskedasticity

Applied Econometrics using  
GRETl (EC 33)

January 23<sup>rd</sup>, 2023

16

NAME: Gowri Bankar S  
SECTION: 55022118009 (1<sup>st</sup> MA)

Instructions: Calculators are allowed. Total  
Marks: 20 points.

1. [1 point] In the equation  $y = \theta_0 + \theta_1 x + u$ ,  $\theta_0$  is the intercept parameter  
(a) dependent variable  
(b) independent variable  
(c) slope parameter  
(d)  intercept parameter
2. [1 point] If an independent variable in a multiple linear regression model is an exact linear combination of other independent variables, the model suffers from the problem of perfect multicollinearity  
(a)  perfect collinearity  
(b) homoskedasticity  
(c) heteroskedasticity  
(d) omitted variable bias
3. [1 point] The assumption that there are no exact linear relationships among the independent variables in a multiple linear regression model fails if  $n > k$ , where  $n$  is the sample size and  $k$  is the number of parameters.  
(a)  $n > 2$   
(b)  $n = k + 1$   
(c)   $n > k$   
(d)  $n < k + 1$
4. [1 point] The Gauss-Markov theorem will not hold if C  
(a) the error term has the same variance given any values of the explanatory variables  
(b) the error term has an expected value of non-zero given any values of the independent variables  
(c)  the independent variables have no exact linear relationships among them

- (d) the regression model relies on the method of random sampling for collection of data
5. [1 point] A model suffers from the problem of endogeneity if
- OLS estimators are not predicted precisely
  - The unobservables do not have constant variance
  - ~~the~~ conditional mean assumption does not hold
  - When  $x_i$  is uncorrelated with  $u_i$
6. [1 point] True or False: The estimate  $\hat{\sigma}$  is interesting because it is an estimate of the standard deviation of the unobservables affecting  $y$ . In other words, it estimates the standard deviation in  $y$  after the effect of  $x$  has been taken out and is called the standard error (s.e.) **True**
7. [1 point] True or False: The term "linear" in a multiple linear regression model means that the equation is linear in the independent variables **False**
8. [1 point] True or False: The regression model,  $\hat{wage}_i = \beta_0 + \beta_1 \text{experience}_i + \beta_2 \text{experience}_i^2 + \beta_3 \text{gender}_i$  violates the assumption MLR 3 **False**
9. [1 point] True or False: Overspecifying a model that satisfies MLR 1 through MLR 4 has undesirable effects on the unbiasedness and efficiency of OLS estimates **False**
10. [1 point] True or False: MLR 3 rules out certain relationships between explanatory variables and MLR 4 rules out relationships between unobservables and regressors **True**
11. [2 points] True or False: Larger the sampling variance in  $x$  in a SLR model, larger the sampling variance for OLS estimators **True**
12. [2 points] CEO salary and return on equity regression model looks like the following

$$\begin{aligned} \text{salary} &= 963,191 + 18,501 \text{roe} \\ n &= 209, R^2 = 0.0132 &= 100 - (R^2 \cdot 100) \\ & &= 100 - 1.32 \\ & &= \underline{\underline{98.68}} \end{aligned}$$

The percentage of salary variations for CEO's salary left unexplained by roe is

- 0.2%
- 1.32%
- ~~18.50%~~
- 18.501%

13. Using data on 5000 college students, the following equation was estimated by OLS

$$\begin{aligned} \text{colGPA} &= 1.467 - 0.0128 \text{hsperc} + 0.00152 \text{tot} \\ n &= 5000, R^2 = 0.234 \end{aligned}$$

where colGPA is measured on a 4-point scale, hsperc is the percentile in the high school graduating class (defined so that, for example, hsperc = 5 means the top 5% of the class), and tot is the combined math and verbal scores on the student achievement test

(a) (2 points) The predicted college GPA when  $hs_gpa = 3.8$  and  $sat = 1,000$  is

a. 2.676

b. 2.817

c. 2.978

d. 3.079

(b) (2 points) Suppose that two high school graduates, A and B, graduated in the same percentile from high school, but Student A's SAT score was 140 points higher (about one standard deviation in the sample). What is the predicted difference in college GPA for these two students?

a. 0.288

b. 0.0834

c. 0.3042

d. 0.2070

(c) (2 points) Holding  $hs_gpa$  fixed, what approximate difference in SAT scores leads to a predicted college difference of .50, or one-half of a grade point?

a. 338

b. 360

c. 320

d. 280

Applied Econometrics using  
GRET (EC 33)

January 23<sup>rd</sup>, 2023

NAME:  
SECTION:

[Sample Question paper with solutions (answer key)]

*Instructions: Calculators are allowed.*

*Total Marks: 20 points.*

- [1 point]** In the equation  $y = \beta_0 + \beta_1x + u$ ,  $\beta_0$  is the \_\_\_\_\_
  - dependent variable
  - independent variable
  - slope parameter
  - intercept parameter**
- [1 point]** If an independent variable in a multiple linear regression model is an exact linear combination of other independent variables, the model suffers from the problem of \_\_\_\_\_
  - perfect collinearity**
  - homoskedasticity
  - heteroskedasticity
  - omitted variable bias
- [1 point]** The assumption that there are no exact linear relationships among the independent variables in a multiple linear regression model fails if \_\_\_\_\_, where  $n$  is the sample size and  $k$  is the number of parameters.
  - $n > 2$
  - $n = k + 1$
  - $n > k$
  - $n < k + 1$  Ans: D**
- [1 point]** The Gauss-Markov theorem will not hold if \_\_\_\_\_
  - the error term has the same variance given any values of the explanatory variables
  - the error term has an expected value of non-zero given any values of the independent variables**

- (c) the independent variables have no exact linear relationships among them
- (d) the regression model relies on the method of random sampling for collection of data
5. [1 point] A model suffers from the problem of endogeneity if
- (a) OLS estimators are not predicted precisely.
- (b) The unobservables do not have constant variance
- (c) Zero conditional mean assumption does not hold.**
- (d) When  $x_i$  is uncorrelated with  $u$
6. [1 point] True or False: The estimate  $\hat{\sigma}$  is interesting because it is an estimate of the standard deviation of the unobservables affecting  $y$ . In other words, it estimates the standard deviation in  $y$  after the effect of  $x$  has been taken out and is called the standard error (s.e.). **True**
7. [1 point] True or False: The term "linear" in a multiple linear regression model means that the equation is linear in the independent variables. **False**
8. [1 point] True or False: The regression model,  $crossary = \beta_0 + \beta_1 \text{ceoten} + \beta_2 \text{ceoten}^2 + \beta_3 \text{gender}$  violates the assumption MLR.3. **False**
9. [1 point] True or False: Overspecifying a model that satisfies MLR. 1. through MLR. 4. has undesirable effects on the unbiasedness and efficiency of OLS estimators. **False**
10. [1 point] True or False: MLR. 3. rules out certain relationships between explanatory variables and MLR. 4. rules out relationships between unobservables and regressors. **True**
11. [2 points] True or False: Larger the sampling variance in  $x$  in an SLR model, larger the sampling variance for OLS estimators. **False**
12. [2 points] CEO salary and return on equity regression model looks like the following

$$\text{salary} = 963.191 + 18.501\text{roe}$$

$$n = 209, R^2 = 0.0132$$

The percentage of salary variations for CEO's salary left unexplained by roe is

- (a) 13.2%
- (b) 1.32%
- (c) 98.68%
- (d) 18.501% **Ans: C**
13. Using data on 5000 college students, the following equation was estimated by OLS

$$\text{colGPA} = 1.467 - 0.0128\text{hsperc} + 0.00192\text{tot}$$

$$n = 5000, R^2 = 0.234$$

where  $colGPA$  is measured on a 4-point scale,  $hsperc$  is the percentile in the high school graduating class (defined so that, for example,  $hsperc = 5$  means the top 5% of the class), and  $sat$  is the combined math and verbal scores on the student achievement test.

(a) [2 points] The predicted college GPA when  $hsperc = 20$  and  $sat = 1,050$  is

- i. 2.676
- ii. 3.227
- iii. 2.078

iv. 3.576 **Ans: ii**

(b) [2 points] Suppose that two high school graduates, A and B, graduated in the same percentile from high school, but Student A's SAT score was 140 points higher (about one standard deviation in the sample). What is the predicted difference in college GPA for these two students?

- i. 0.2688
- ii. 1.0934
- iii. 0.3012

iv. 0.2072 **Ans: i**

(c) [2 points] Holding  $hsperc$  fixed, what approximate difference in SAT scores leads to a predicted college difference of .50, or one-half of a grade point?

- i. 338
- ii. 200
- iii. 220

iv. 260 **Ans: iv**

## REPORT

### EC 33: Applied Econometrics using GRET

Last year when the department offered the course only P.G. students participated. So, this year the department gave few introductory classes to UG students to encourage their participation as well. Based on last year's feedback we arranged smaller duration lab hours along with lecture hours to make it more efficient. Even though there was no much alterations in the curriculum of the course, the course delivery undertook a sea change.

GRET being a free and student friendly software students were able to understand the basic concepts of econometric modelling as well as hypothesis testing. 2 to 3 students were clubbed into one group for the lab hours which was 1.5 hrs. rest of the sessions were planned as 1 hr sessions.

Date: Thursday, 9 March, 2023 at 03:51 pm GMT

Sir

As per the instructions from Principal and IQAC, PG and Research Department of Commerce in association with Skillspark Tvm is planning to start an Add on course on Advanced Excel for both PG and UG students from tomorrow onwards (9.3.2023). I kindly request you to provide administrative sanction for the same.

Thanking you

Dr. Rakesh S

Program coordinator

**Report on Add on Course Dashboard Creation in Excel organised by PG & Research  
Department of Commerce Mahatma Gandhi College in association with Skillspark The  
Finishing School Pvt. Ltd from March 10<sup>th</sup> 2023 to March 19<sup>th</sup> 2023**

**Introduction**

PG & Research Department of Commerce Mahatma Gandhi College in association with Skillspark The Finishing School Pvt. Ltd organized a 10 day (30 lecture hours) add-on course on Dashboard Creation in Excel from March 10th 2023 to March 19th 2023 for PG and UG students through hybrid mode. Google meet and Microsoft Excel were the platforms used for this programme. The programme began on March 10th, 2023, at 11.30am with a prayer and was followed by Acharayanusmaranam. Dr. Dileep. A.S. Senate Member, University of Kerala and Head of the Department of Commerce at Mahatma Gandhi College proposed welcome speech. The presidential address was given by Prof. Dr. Nanthiyath Gopalakrishnan., Principal, Mahatma Gandhi College. Dr. Pradeepkumar. N, Dr. Vinod A.S, Dr. Jayadev, Dr. Sumitha .R and Sri. Vishnu Gopan expressed felicitation to the programme and at 12.15 p.m., Sri. Rakesh S.(Programme Coordinator) gave a vote of appreciation to end the official inauguration. On March 21, 2023, at 10:00 AM., a valedictory ceremony for the 10-day course was held at the department seminar hall. Certificates to the participants were also distributed during this session.

**Objective of the Programme**

This programme primarily focused on areas in Advanced Excel especially dashboard creation to train students to pursue a career in the accounts & finance field. This was done in awareness of the reality that there are numerous employment prospects but a scarcity of multi-skilled candidates to meet companies' present needs.

**Methodology of the Programme**

MsJoanna Jose Pereira, CCROM cum Finance Faculty Skillspark, led a 30-hour expert session over 10 days using a blended learning strategy, which was the backbone of the programme, to accomplish the aforementioned objective. As per the feedback from the last course we offered, both online and offline sessions were conducted to have a better understanding of the topic.49 students chose to participate in this programme, and they registered using a Google Form provided to them.

### Outcome of the Programme

The course was successful and educational, and it helped students have a better understanding of several areas of Advanced excel and especially dashboard creation in excel such as planning a dashboard, adding tables and charts, and adding dynamic content to the dashboard. They will surely benefit from having the tools required to meet industrial criteria. In addition, an assessment test was given to evaluate the course's effectiveness. Google Forms were also used to collect feedback and recommendations for the training.

Head of the Department

**Dr. DILEEP A.S**  
Assistant Professor & Head  
PG Department of Commerce & Research Centre  
Mahatma Gandhi College, Thiruvananthapuram

Principal

## Course syllabus

Aim of the Course: To impart knowledge to students have a better understanding of dashboard creation in excel such as planning a dashboard

Course Objectives:

1. To impart knowledge regarding concepts of Advanced Excel
2. To make students capable for Dashboard creation in Excel

### **Module 1: Introduction to Advanced Excel (3 Hours)**

An overview on-screen- navigation- spreadsheet concepts- selection techniques- short keys

### **Module 2: Using functions (3 Hours)**

Using different functions- Sum, average, max, min, count- Absolute, mixed and relative referencing

### **Module 3: Mathematical Functions (3 Hours)**

Sumif, Sumifs, Countifs, Averagelfs, Nested If, AND, OR, NOT

### **Module 4: Text Functions (3 Hours)**

Upper, lower- Left, mid, right- Trim- Concatenate- Find, Substitute

### **Module 5: Date & Time functions (3 Hours)**

Today-now- Day-month-year- Date- Weekday

### **Module 6: Paste special techniques (3 Hours)**

Paste formulas- Paste validations-Transpose Tables

### **Module 7: Sorting & Filtering (3 Hours)**

Filtering on text, numbers- Sorting options- Advanced filters

### **Module 8: Printing workbooks (3 Hours)**

Setting up print area- Customization of header and footer- Print titles / Repeat rows & Columns

**Module 8: Introduction to Excel Spreadsheets (2 Weeks)**

Planning a spreadsheet, setting tables and charts, and setting formulas and links

**Module 9: Advanced Excel Spreadsheet creation (2 Weeks)**

Data filtering, advanced charting, Pivot tables, and spreadsheets with conditional formatting

## Dashboard Creation (Online Class)

Assessment Questions.1 mark each

1. How can we represent data in a dashboard?
  - a. Using Tables
  - b. Using Charts
  - c. Using Figures
  - d. All of the above
  
2. Shortcut key for adding a row/column.
  - a. ALT "+"
  - b. SHIFT + ALT "+"
  - c. CTRL + ALT "+"
  - d. CTRL "+"
  
3. Which tab has the Data Validation ribbon?
  - a. Home tab
  - b. Developer Tab
  - c. Data Tab
  - d. Review Tab
  
4. What is the purpose of using Freeze pane?
  - a. Freeze top Row
  - b. Freeze First Column
  - c. Freeze according to the purpose.
  - d. All of the above.

5. What is the purpose of using double lock?
  - a. To not apply the formula to the selected set of cells.
  - b. To apply the formula only to the row.
  - c. To apply the formula only to the column.
  - d. To apply the formula to the selected cells and not beyond that.
  
6. If there are two criteria while finding the count of a data, which formula needs to be used?
  - a. Count
  - b. Countifs
  - c. Countif
  - d. Count A
  
7. To add a shade to a cell, which option needs to be selected?
  - a. Conditional Formatting
  - b. Fill Colour
  - c. Font Colour
  - d. None of the above
  
8. Under which tab is the Macro function available?
  - a. Data Tab
  - b. View Tab
  - c. Developer Tab
  - d. Home Tab
  
9. Under which group does the "No border" option available?
  - a. Styles Group
  - b. Editing Group
  - c. Font Group
  - d. Data Tools

10. Suppose you need to apply a restriction where your data cannot accept texts which more than 10 characters, which function would you use?

- a. Data Validation
- b. Lookup functions
- c. Logical Functions
- d. None of the above

11. X-lookup can be used for:

- a. Vertical data
- b. Horizontal data
- c. Scattered data
- d. Both a and b

12. Demerits of H-lookup:

- a. Can be used only for Vertical data
- b. Can be used only for horizontal data
- c. Cannot insert a new row between the data after entering the formula.
- d. Both b and c

13. Chart option comes under which tab?

- a. Home Tab
- b. Review Tab
- c. View Tab
- d. Insert tab

14. What is the purpose of using the unique value?
- To find the total number
  - To highlight the cells
  - To extract data which are not repeated
  - None of the above
15. Why do you make the excel sheet macro enabled?
- To support the functioning of macro
  - To apply the formulas
  - To protect the data
  - All of the above
16. What is the shortcut key to select the entire cells in a sheet?
- SHIFT + ALT + A
  - ALT + A
  - SHIFT + CTRL + A
  - CTRL + A
17. What is the shortcut key to access Format cells options?
- CTRL + F
  - CTRL + 1
  - ALT + 1
  - ALT + F

18. Which ribbon is not available inside the Font group?

- a. Format Painter
- b. Fill Colour
- c. Increase Font Size
- d. Fill Colour

19. Protect sheet comes under which tab?

- a. Review Tab
- b. View Tab
- c. Home Tab
- d. Page layout Tab

20. Hyperlink is used for:

- a. Linking to another sheet
- b. Linking a function
- c. Linking to another document
- d. Both a and b

21. What is the shortcut key to repeat the last action/session?

- a. F3
- b. FN + F4
- c. F4
- d. Both b and c

22. "Freeze Pane" comes inside which group?

- a. Zoom Group
- b. Window Group
- c. Page Setup
- d. Editing

23. "Illustrations" comes under which tab?

- a. Page Layout Tab
- b. Insert Tab
- c. View Tab
- d. Formula Tab

24. What is the purpose of data validation?

- a. Validating Data
- b. Highlighting Data
- c. Restricting Data
- d. None of the above

25. In IF AND function:

- a. Only one criterion has to be satisfied
- b. No criteria have to be satisfied
- c. All criteria have to be satisfied
- d. Only two criteria have to be satisfied.

Add-on Course on Advanced Excel (Dashboard Creation) organised by PG & Research Department of Commerce Mahatma Gandhi College in association with Skillspark The Finishing School Pvt. Ltd from march 10<sup>th</sup> 2023 to March 19<sup>th</sup> 2023

**Subject:** INVITATION TO HOST STTP-SKILLSPARK

Dear Sir/Ma'am,

This is an official invitation to host our Short Term Training Program on Professional Accounting with Tally Prime . We can schedule the event at a time without affecting regular class schedules. Also the event posters as well as videos for the college can be created by our multimedia team which would provide an extra mileage for the event and hosting college. Please let us know the convenient day for the event. Your prompt action would highly be appreciated.

Attaching the invitation brochure along with this mail .

Professional Accounting

"Skills Speak louder  
than degrees"

**Report on Value Added Course on Professional Accounting using Tally Prime  
organised by PG & Research Department of Commerce Mahatma Gandhi College in  
association with Skillspark The Finishing School Pvt. Ltd from July 4<sup>th</sup> 2022 to  
July 15<sup>th</sup> 2022**

### **Introduction**

PG & Research Department of Commerce Mahatma Gandhi College in association with Skillspark The Finishing School Pvt. Ltd organized a 10 day (30 lecture hours) value added course on *Professional Accounting using Tally Prime* from July 4<sup>th</sup> 2022 to July 15<sup>th</sup> 2022 for PG and Second Year UG students through online mode. Google meet and Tally prime were the platforms used for this programme. The programme began on July 4<sup>th</sup> 2022 at 7.30 pm with a prayer and was followed by Acharayanusmaranam. Dr. Dileep. A.S, Senate Member, University of Kerala and Head of the Department of Commerce at Mahatma Gandhi College proposed welcome speech. The presidential address was given by Dr. Ambili M., Principal, Mahatma Gandhi College. Dr. Pradeepkumar. N, Dr. Vinod A.S, Dr. Jayadev.S, Dr. Sumitha .R and Sri. Vishnu Gopan expressed felicitation to the programme and at 8:00 p.m., Sri. Rakesh S.(Programme Coordinator) gave a vote of appreciation to end the official inauguration. On July 15, 2022, at 10:00 p.m., a closing ceremony for the 10-day course was held online. On July 18, 2022, at the Commerce Department, newly appointed Principal Dr. V.M. Anandakumar distributed certificates to the participants.

### **Objective of the Programme**

This programme primarily focused on trending areas in Digital Technologies, Professional Accounting, and Administration Field to train individuals completely in computerised accounting using Tally Prime to pursue a career in this field. This was done in recognition of the fact that there are significant career opportunities but a lack of multi-skilled candidates to fulfill current needs of companies.

### **Methodology of the Programme**

Mr. JithinMadhu, Faculty Head Skillspark, led a 30 hour expert session over 10 days using a blended learning strategy, which was the backbone of the programme, to accomplish the aforementioned objective. 48 students chose to participate in this programme, and they registered using a Google Form provided to them.

## SYLLABUS OF THE COURSE

Aim of the Course: To impart knowledge to students how to manage accounting, inventory, orders and pay roll in tally prime and to acquaint with practicality and current industry norms.

Mahatma Gandhi College, Thiruvananthapuram  
Department of Mathematics

Add-on Course on Introduction to Linux Operating System (Course Code : MGMM02, Program Code : UG-01)  
2022-23

**Aim of the Course :** To make awareness of Linux operating system and UNIX commands to UG students of First year BSc Mathematics Students of the college.

**Course Outcomes:**

CO1: To understand the basics of the operating systems UNIX and LINUX

CO2: To understand the file management using these operating systems

CO3: To understand file permission and ownerships

**Duration of the Course :** 30 Hours

**Total Intake :** 35 Students

**Mode of Selection :** Interested students of I BSc Mathematics Class

**Syllabus**

**Module 1**

**Introduction to UNIX and LINUX**

History and development of Unix and Linux, Comparison of Unix and Linux distributions, Accessing the command line interface (Terminal)

Basic UNIX commands – login, directory structure and commands, different file related commands, different file editors, related commands etc.

**Module 2**

**File Management**

Understanding the file system hierarchy, Listing files and directories (ls), Changing directories, Creating, copying, moving and deleting files, Working with text files, text editing with text editors, Searching for texts in files.

**Module 3**

**File Permissions and Ownerships**

Understanding UNIX file permissions, Modifying file permissions (chmod, chown), Special permissions, Creating and extracting compressed files, Managing archives with tar.

**Report on Add-on Course on Introduction to LINUX  
Operating System**

2022-23

The Department of Mathematics conducted an add-on course on Introduction to LINUX Operating System for the first year students of the BSc Mathematics class of this college. The Principal of the College inaugurated the programme on 2-11-2022. 30 hours of classes on LINUX operating system and UNIX commands were given to the participants. The classes were taken by faculty of the Department of Mathematics, MG College, Thiruvananthapuram. The evaluation and feed back session was conducted on 6-02-2023. The certificates for the participants were issued on 13-02-2023 by the Principal.

Contact — Dr. Ullas Chandran S V (8891711284)

Mahatma Gandhi College, Thiruvananthapuram  
Department of Mathematics

Add-on course: Doing Mathematics with SageMath

Course code: MGMM03

Course outcomes: - students will be able

- CO-1: To apply essential programming tools which are required for advanced mathematics.
- CO-2: To understand about programming: conditionals and iterative loops, creating their own commands.

Starting SageMath using a browser, how to use the sage cell server (<https://sagecell.sagemath.org/>), how to use SageMathCloud, creating and saving a sage worksheet, saving the worksheet to an .sws file, moving it and re-opening it in another computer system; Using sagemath as a calculator, basic functions (square root, logarithm, numeric value, exponential, trigonometric, conversion between degrees and radians, etc.);

Plotting : simple plots of known functions, controlling range of plots, controlling axes, labels, gridlines, drawing multiple plots on a single picture, adding plots, polar plotting, plotting implicit functions, contour plots, level sets, parametric 2D plotting, vector fields plotting, gradients.

Matrix Algebra : Adding, multiplying two matrices, row reduced echelon forms to solve linear system of equations, finding inverses of square matrices, determinants, exponentiation of matrices, computing the kernel of a matrix;

Defining own functions and using it, composing functions, multi variate functions;

Polynomials : Defining polynomials, operations on them like multiplication and division, expanding a product, factorizing a polynomial, finding gcd;

Solving single variable equations, declaring multiple variables, solving multi variable equations, solving system of non linear equations, finding the numerical value of roots of equations; complex number arithmetic, finding complex roots of equations, Finding derivatives of functions, higher order derivatives, integrating functions, definite and indefinite integrals, numerical integration, partial fractions and integration,

2022-23

The Mathematics Department extended an invitation for applications to the SageMath programming course, resulting in the selection of 17 second-year BSc Chemistry students. The program was inaugurated on June 27, 2022, by the College's Principal. Over the course of the program, participants received a total of 30 hours of instruction on SageMath, facilitated by Dr. Ullas Chandran S. V., an Assistant Professor in the Mathematics Department. An evaluation and feedback session took place on October 11, 2022, followed by the issuance of certificates to participants by the Principal on the same date.

Starting an Add-on Course on

LaTeX Programming

for the academic Year 2022-23

Interested students can join the Program

Contact —Dr K Radhakrishnan (9447018612)

**Mahatma Gandhi College, Thiruvananthapuram  
Department of Mathematics**

**Add-on Course on LATEX Programming  
(Course Code : MGMM01, Program Code : AD03)**

**Aim of the Course :** To make awareness of LATEX documentation program to PG students of various Science department of the college.

CO-1: To understand the operating systems UNIX and LINUX

CO-2: To understand about typesetting using LaTeX

CO-3: To create mathematics articles.

**Duration of the Course :** 30 Hours

**Total Intake :** 15 Students

**Mode of Selection :** On merit basis (from the applicants)

**Syllabus**

**Module 1**

**Introduction to UNIX Commands**

Introduction to Linux Operating System. Basic UNIX commands – login, directory structure and commands, different file related commands, different file editors, related commands etc.

**Module 2**

**Introduction to LATEX**

Computer typesetting using LATEX, running LATEX, different fonts, alignments, setting tabs, underline, setting margins, different documentclasses, special symbols, footnotes, drawing tables, multi columns, multi rows, drawing lines, itemizing, enumerating

**Module 3**

**Mathematical Symbols**

Creating mathematical articles, different mathematical symbols and notations, fractions, matrices, arrays, equations, Greek symbols, defining commands, theorems.

**Report on Add-on Course on LATEX Programming**

2022-23

The Department of Mathematics invited application for the Latex program and 14 students of I year MSc Physics class were selected for the course. The Head of the Department inaugurated the programme on 13-01-2023. **30** hours of classes on LATEX programme were given to the participants. The evaluation and feed back session was conducted on 27-03-2023. The certificates for the participants were issued on 30-03-2023 by the Principal.
