

CORE VALUES OF THE INSTITUTION

EXCELLENCE AND DIVERSITY

The institution pursues the ideals of excellence, equity, social justice, accessibility and inclusion by welcoming talented students from different backgrounds and building a student-teacher community that provides a safe and supportive environment.

GROWING BY LEARNING

The institution generates new knowledge, encourages innovations and promotes artistic and creative works that contribute to the individual and public good. It builds upon the best science practices to strengthen research capabilities and capitalize on emerging and interdisciplinary opportunities.

ETHICS AND INTEGRITY

The Institution remains committed to following the highest standards of ethical conduct in pursuit of its mission to increase and diffuse knowledge. It fosters an academic environment that promotes responsible and principled behaviour and honours the dignity of all members of the community.

NATIONALISM

The institution upholds the national ethos of the country by making the students aware of their duty to furthering the country's interests and undertaking research in a manner beneficial to our shared culture and heritage.

FOCUS ON STUDENTS

The primary focus of the institution is on understanding and solving significant societal problems and to inspire students to engage in constructive debates and become positive contributors to communal and social welfare.

SERVICE

The institution aims to promote commitment to public service by sharing its valuable academic and cultural resources and extending its services to the weaker and marginalized sections of society.
